"Ricky's focus on mindset and why it matters is paramount to living your best life. His ability to help you tap into your control of your perspective and its ultimate outcomes is spectacular. A growth mindset is so important in all that we do as colleagues, friends, community members and family members. Ricky shows this importance through humor and impact during his show. And his book "Leverage Your Mindset" is a great manual on how to keep this work in the forefront until it becomes innate!"
