

## Dr. Gary Bradt Client Testimonials

“We had many, many comments from our attendees that you were one of the best Keynotes we have had EVER! I knew it was a real success when there weren't any books left behind, (never seen that before) and we had to refresh the notepads at break, because at least half the people had taken their entire notepad with them when they left for break. I hope we can work together at another event in the future.”

**Judy Hammond | President | Resource Management Services, Inc.**

“I attribute much of your success at our conference to our numerous conversations prior to the conference and your ability to customize your presentation to our members' needs. Additionally, you were well received by all because of your willingness to interact with our members before your presentation. I wholeheartedly recommend you to any future group looking for an 'all-in', energetic, and interactive keynote presentation from a friendly and polished speaker.”
